

Total Control

The **Fortica Control** is a universal poultry automation system that gives users total control over all house processes, including feeding, watering, lighting, animal weighing, and egg counting.

- The fully intuitive touchscreen control is customizable to meet user preferences.
- Remote access and control from your phone, table, or PC through the SyslinQ App.
- Novus Farm Management system logs data into easy-to-read charts for trend comparisons.
- The Smart VX expands the capabilities of your controller with an innovative relay design and on-board processors.

On-board processors permit tracking curtain and inlet movement even when manually overridden.
