

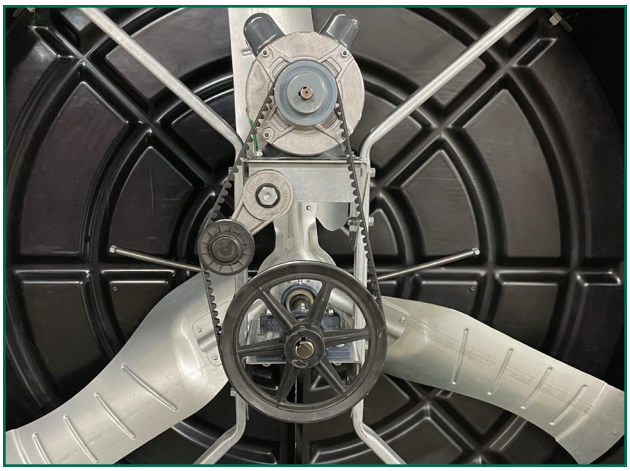
Move More Air

The **Mach 57™** from VAL-CO is a large 57” exterior mount fan that produces increased airspeed and provides fantastic performance.



- Black interior helps with light control
- Galvanized blade
- Fiberglass housing gives greater longevity
- Uses a lot of the same components as our 54” fans, which helps with keeping repair parts on the shelf
- By using a common rough opening, the Mach 57 is ideal for retrofits
