

More Room & More Eggs

The double-wide nest holes of the **Comfort Nest™** are preferred by hens 10-to-1 over single nest holes.

- Large 19” (48.3 cm) nest holes are very inviting to hens
- Double wide nest holes – more eggs in the nest, less on the floor
- Large openings provide plenty of ventilation with minimal drafts
- Wide 5” Poly Side Belt option helps prevent checks and cracks while providing cleaner eggs
