

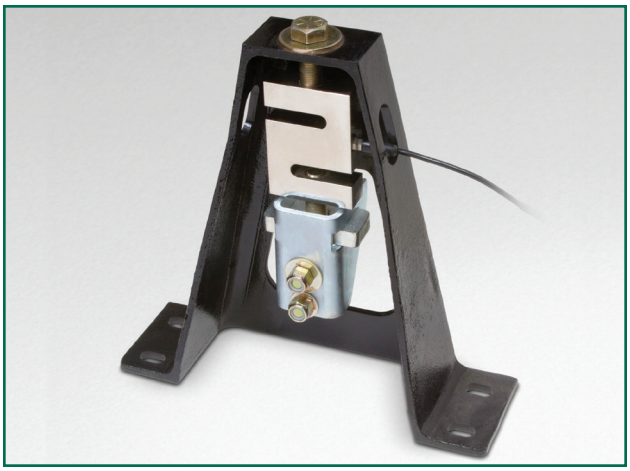
Better Than Guessing

BinTrac® – an accurate and reliable bin weighing system, taking the guess work out of your operation.



- The system can be easily installed on any new or existing feed bins
- Track real-time inventory of feed by weight of the bin
- Shows current weight of individual bins in up to a 4-bin cluster
- Provides 24-hour feed use for the last four days and shows the last four fill amounts to confirm or check deliveries
