

The Comfort Nest™ is very inviting.

Our **Poly Belt** option helps prevent checks and cracks while providing cleaner eggs with less contamination.

Plenty of Room & Plenty of Clean Eggs!

Automated Comfort Nest Systems

The VAL-CO® systems handle breeder eggs gently and cleanly – and make gathering a fast and easy job!

Providing enough room for your birds is very important, which is why we offer the 19” (48.3 cm) **Comfort Nest**. These double wide nest holes – preferred by hens 10-to-1 versus single hole nests – provide plenty of ventilation with minimal drafts. With that much room, you’ll be getting lots of eggs and would find a benefit in choosing our **Poly Belt** option, which helps provide cleaner eggs with less contamination.

VAL-CO egg collection tables have a heavy steel construction – the toughest in the industry, with cast iron bearings, large utility shelf and a standard light fixture. The side belt nest collection table has “no tools required” covers for easy access to the direct drive and egg belts for maintenance and cleaning.

Comfort Nest Dimensions

Call your local **VAL-CO** representative or distributor for more information on these and our other fine products.
