

The Safer Way To Feed Your Birds!

The FUZE V Grill-less Feeder from VAL-CO®

The FUZE V Grill-less Feeder was designed, based on research and feedback from top growers in the field, to improve feed efficiency and reduce chick mortality. There are multiple settings just by twisting the collar which will help you provide your birds with the proper amount of feed during any stage of growth.

FUZE V Features:

- Provides easy access from day 1
- High flood windows provide great feed presentation
- Grill-less design for more humane production
- Feed saver lip to help prevent wastage

The FUZE V Grill-less Feeder is a great choice for your next flock!

*The FUZE V Feeder
provides great feed presentation*
