

Provide Precise Air Flow

The **AccuFlow Inlet** from VAL-CO® is the latest advancement in precision air distribution control for poultry and livestock facilities.

- The innovative curved shape of this inlet provides precise air flow control when coupled with today's modern control packages.
- Latest in aerofoil technology design throws air to the center of the building.
- Insulated doors minimize condensation, while reinforced doors seal tightly with industrial weather-stripping.
- The side seals ensure the airflow is directed where it needs to be.

The VAL-CO AccuFlow Inlet distributes fresh air farther in today's wider buildings.
