

Create A Happy Community

VAL-CO® Community Nests are high quality, water-resistant nests that can be easily assembled on-site.

- The hen-friendly design includes a gentle expeller to prevent hens from brooding
- The nest pads are comfortable and inviting to the hens, helping prevent floor eggs, and leads to greater output of high-quality eggs
- A sloped nest bottom allows the eggs to safely roll on to the center belt
- Flat top or shingled styles available
