

Give Them A CleanStart™

The **CleanStart Feeder** from VAL-CO® supplies your broilers with uncontaminated feed and allows them to grow faster, in a cleaner environment.

- Recommended for use from day 1 to 12.
- Provides easy access to the feed with a 360° feed distribution.
- Designed for minimal feed waste, you can manually or automatically fill the feeder.
- When you're ready to remove the CleanStart, these feeders are simple to clean and can be neatly stacked for storage until your next flock comes in.w

The U shaped bottom keeps a good supply of feed.
