

NEW PRODUCT RELEASE

VAL-CO Introduces the Triple Upper Boot!

Fill feeders faster with more feed lines!

Triple Upper Boot (500850)

The 500850 Triple Upper Boot is designed to provide more feed to more flexible auger lines from one source. When used in conjunction with the double lower boot, up to six auger lines can run from a single feed bin!

Up to six possible auger lines!

Features & Benefits

- Comes preassembled
- Two access doors for easy cleaning
- 14-gauge galvanized steel

The Triple Boot bolts directly to 6ft, 7ft, and 9ft top collars. On 12ft bins, collars must be drilled.

For use with Auger Models 720, 725, 730, & 735.

Best Regards,
Sean Francey, General Manager

Access doors for easy cleaning.
