

NEW PRODUCT RELEASE

VAL-CO Introduces the 7.5° Unloading Wedge!

7.5 ° Unloading Wedge (501480)

The 501480 Unloading Wedge raises the auger angle a whopping 7.5 degrees!! AND It's made out of galvanized steel!! If that's not enough, it fits onto any VAL-CO unloader!! It just can't get any better.

Features & Benefits

- Incredibly durable
- Chic metal patina
- Limitless potential

But seriously, the new VAL-CO 7.5 degree wedge can help you achieve the optimal auger line angle to get feed into your barn with a minimum of elbows.

Best Regards,
Sean Francey, General Manager

Raises auger line just a smidge!
