

# Rugged Handles for Bins

## No More Broken Bin Handles!

**All-Metal Bin Lid Handles—Now Standard on all VAL-CO® Bins.**

It's cold. It's windy. Truck just pulled away and my bin handle's flying in the wind. Am I worried? Not anymore!

**All Metal Construction:**

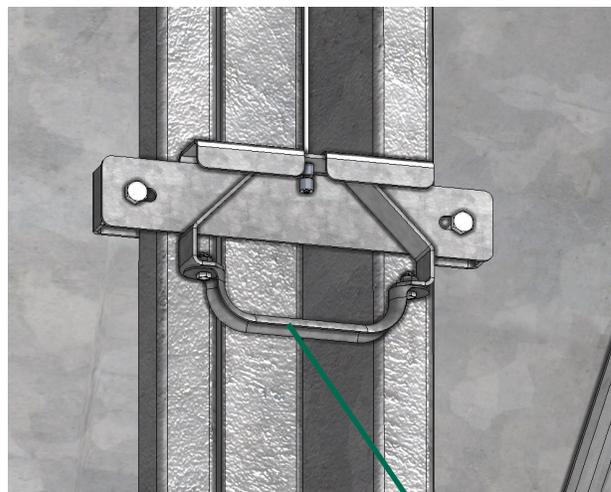

- Heavy-duty 12G and 18G galvanized steel.
- T304 Stainless steel aircraft-grade cable—no rope here— with a pulley to save your roof panels.
- Made in the U.S.A.

So. Cool.

Happy Selling!
